

## Ilias Livanos

---

*Cedefop Expert, Department for Skills and Labour Market*

**Institution:** [European Centre for the Development of Vocational Training \(Cedefop\)](#)

**Email:** [ilias.livanos@cedefop.europa.eu](mailto:ilias.livanos@cedefop.europa.eu)

### Biography

Ilias Livanos is a Cedefop expert. Working in the Department for skills and the labour market, Ilias heads the *Skills forecast* and the *European skills index* projects, while he has been responsible for conceptualising the quantitative structure of the Skills Panorama. Ilias is involved in several other Cedefop projects (including Mismatch priority occupations and Skills governance). Ilias is an economist by training, with a PhD in employment research from the University of Warwick, where he worked for a number of years prior to joining Cedefop. His expertise is in labour economics, education economics, and industrial relations. Ilias has published articles in various top-ranking journals including: *Industrial Relation, A Journal of Economy and Society, Regional Studies, Industrial and Economic Democracy, Journal of Economic Studies, Education Economics, Applied Economics Letters, Higher Education, the International Journal of Manpower, Personnel Review*, and the *Journal of Labour Research*.

**POLICY, RESEARCH**

## **European Skills Index: skills systems explained!**

14/03/2019 / [Ilias Livanos](#)

Skill systems are crucial for countries' competitiveness and growth, and well as for individuals' development and wellbeing. Important EU initiatives, such as the European Pillar of Social Rights and the New Skills Agenda, set out the improvement of skill systems as a key priority.

## The EU workforce: under-skilled at hiring!

10/04/2017 / Ilias Livanos

A pervasive aspect of skills mismatches is that of “under-skilling”.
