

Prospects for Denmark

04/2015  [Denmark](#), [Country prospects](#)

Table of contents

[Summary](#)

Summary

A shortage of higher and vocationally educated persons is expected for 2020.

Key facts:

- Denmark's employment rate was 75.6% in 2013 – lower than the national 2020 target of 80%.
- but in line with the EU-28 2020 target of 75%.
- A shortage of higher and vocationally educated persons is expected for 2020.
- 20% of employed persons think that they need more education and training to perform better in their current job.
