

OSKA

 Estonia

About

OSKA analyses the needs for labour and skills necessary for Estonia's economic development over the next 10 years. OSKA applies research surveys on sectoral needs for labour and skills using a combination of qualitative and quantitative research methods and analyse professional qualifications across all levels of education. For this purpose, both statistical data and information collected from personal interviews with sectoral experts and from group discussions are used. It publishes reports on changes in labour requirements, labour market developments and the dominant trends and the future trends.
