

Global Forum "Boosting Skills for a Just Transition and the Future of Work"

16/04/2019  [Matching Skills and Jobs](#), [Future Jobs](#), [EU](#)

Global Forum on a Just Transition towards Environmentally Sustainable Economies and Societies for All based on the ILO and Cedefop cooperation

[Watch the video here](#)

ILO joined forces with Cedefop and conducted national studies in 31 countries focused on boosting skills for green jobs. Skills development measures are instrumental in reaping the benefits of potential job creation in new green economic activities and in addressing the social challenges in shifting to more sustainable models of energy generation, production and consumption across sectors. In this context, the global Forum will discuss the results of the comparative research.
